

Sample Surrogate Cycle Estimate

(Please refer to Sample Surrogate Benefit's Packet for more detailed information on fees)

The costs detailed below are only estimates and may not include all expenses associated with the gestational surrogacy/egg donor process. Complications (e.g. multiple births, difficulty in egg stimulation/conceiving, high-risk pregnancies, etc.) will add to the costs of the surrogacy process. In addition, non-local surrogates/egg donors may be subject to additional screening and travel fees.

Surrogate Fees (1st time surrogate)	Notes	Estimate
Base Fee (Experienced surrogates' fees will be higher)	Begins 1st day of the month following 7 weeks after embryo transfer and fetal heartbeat confirmation	\$22,000.00
